## ISSUE 19

### Learning Assemblies

Each week, we have an assembly focused around the children's learning. Last week, we introduced talking trios where children have been placed into groups of three with other children across the school. The focus of these assemblies is to develop children's oracy (communication) skills which links in with our agree, build and challenge actions that the children use during lessons.

This week, all children in years 1-6 brought along their topic books to share one piece of learning they are proud of and one piece they would like to improve, with a focus on presentation. They talked brilliantly in their groups and could share their learning with one another.

Over the coming weeks, all children are going to be working hard on improving their presentation.

## Mrs Edwards' Reminders

Please ensure you are using the correct Relish portal for your lunch orders. The portal found via Google search is *not* the correct one.

Please use

<https://atlp.relishops.com/parents/>

There are still too many children ordering their lunches during morning registration every day -between 1/4 and 1/3 of most classes. Whilst we understand that IT glitches happen from time to time (if this is the case, please book your child's lunch at the school office), it is parents' responsibility to ensure that lunch has been ordered for their child before the start of each day. This enables the registers to be completed for learning to start promptly at 9am.

If you are having issues accessing the portal, please contact the number below:

**03300240016**

## iPad pens

We have some children across school who have misplaced their iPad pen which is affecting them being able to complete learning in class. Please can you have a look to see if you have any around the home.

Thank you

## Clubs Reminder
